While there will be no more grooms, there is still a lot of sledding to be had here. We will keep updating you on conditions the next couple weeks so continue to stay tune.

Snow & Weather

SNOW AND WEATHER

There hasn't been a lot of snow in the past week and there isn't a lot more coming in the forecast. So it's a settled spring snowpack that warms up when the sun hits it and freezes tight when it's cold. The freezing level will continue to work its way up in elevation but for the time being, there's still a ton of snow left to go shred.
